**Important Information**

This performance data represents past performance and does not guarantee future results. There is no guarantee that the circumstances leading to this performance will be replicated in the future. Investment return and principal value will fluctuate and principal investment may be worth less than its original cost when redeemed. Year-to-date and since inception total return are the compounded rate of change in value during a period of investment, including the value of shares acquired through reinvestment of all dividends and of all capital gain distributions for the period. These figures are based on an investment at the beginning of the period through the end of the period and reflect all applicable fees and expenses. These figures do not reflect taxation a shareholder would pay upon a distribution or redemption. Recent performance may be less than the figures shown.
